Winestyles is pleased to announce the opening of an exhibit which will feature a variety of works created by Los Angeles-based artists David Hinnerichs, Sr. & Isaiah Hinnerichs. David is a very talented Artist who is also a fourth generation cabinet maker who has worked on many impressive large scale projects. Isaiah is also a talented Artist and, at the age of 21—in spite of his visual challenges at birth—has already received an impressive certification from the Foundation for the Junior Blind, Student Transition and Enrichment Program (STEP) and also an Outstanding Student Award from the Faculty of the Visual Arts & Design Academy. Isaiah has had a variety of his artwork published in the Pasadena-based magazine “Volume,” which is provided by the Pasadena Youth Center (PYC) and directed by Ms. Stella Robles Murga. In this exciting Father and Son exhibit at the Winestyles Pasadena location, both artists will present a variety of media: from oil on canvas or recycled woods to acrylic, and sometimes steel. The simple and elegant style used by both artists may conjure a contemporary abstract landscape or a classical figurative still life framed within a world of dynamic yet timeless space.
